## SKILLED NURSING AND REHABILITATION

Our specialty programs are designed to provide an extra level of care for short-term rehab patients in recovery mode. Our team of highly skilled healthcare professionals work with you and your physician to develop a customized treatment plan to meet your needs and goals to return home quick, yet safe. Reliant Rehab is our partner to impact your rehab experience, again focusing on short stay, home evaluations so you can transition quick, yet safe.

## MEMORY CARE

Our Memory care program and team of experts provide an assortment of specialized activities, programs, and the long-term care needs to care for individuals going through early or late onset memory care related issues. Feeling secure and oriented in their living space is most important for residents experiencing memory loss. With our relaxed, comfortable, and reassuring environment this too helps residents feel well cared for and reduces instances where residents feel uncomfortable or unsafe. Experienced and professional staff ensures that each resident receives the correct nutrition and medication support throughout their day. This sense of comfort will naturally extend to family members and friends who can focus on spending quality time with their loved one during their visits.

## LONG TERM CARE

Our long -term care services provide extra care and support for residents in whatever way they need it. We provide a variety of services which can help meet both the medical and non-medical needs of an individual with a chronic illness. The activity experts at our campus play a vital role in our resident-centered care philosophy. Our long-term care staff strongly believe that a thriving individual is not only getting their medical and physical needs met, but their spiritual, emotional, cognitive, and social needs met as well.
